## CAREER TIMELINE

## PROFESSIONAL EXPERIENCE

### JPMC | AVM | DOCM CDO / CTO-1 | SM & DevOps Coach

Jun-2017 to Till Date

CCB technology is a large organization that supports multiple businesses and consumers.

I started as a scrum master in 2017 and worked with the KPI, Metrics COP to improve organizational productivity. From 2018 I started as a development officer for a large group (200+) and improved business and technology productivity KPI. I gained lots of knowledge on key productivity KPI and OKRs across the organization. Currently working closely with CTO, the operating committee to drive and explore more productivity opportunities across the organization. Achieved multiple appreciations and driving critical initiatives on performance management.

J.P.Morgan

### TCS | Lead scrum Master | Proxy PO | | Technical Project Manager

Oct-2014 to Jun-2017

Ericsson R&D program is a dedicated TCS wing for upcoming Ericsson products, ENM a digital network management system (ENM) manages end to end telecommunication networks.

From 2014 to 2017, I grew as a lead scrum master and progressed to a technical project manager and DevOps coach. Took care of critical projects & overall quality of all deliverables. Progressed as a strong individual contributor with hands-on digital technologies, UX & DevOps pipeline. A key partner in a team for leading mission critical projects and enabled deliveries, streamlined processes to make products better. The entire life cycle was improved from 2 months to 5 days through continuous process improvement, ENM project scales across 150 global teams & has ability to deploy to customer on a daily basis. Received multiple awards.

### TCS | Developer | Team Lead | Scrum Master

Mar-2009 to Oct-2014

Ericsson R&D program is a dedicated TCS wing for the upcoming Ericsson product, AXE telecom switch, and supports processing of reports.

In the 6 years of my career began as a team member and transitioned to critical designer, coordinator, and evolved as a team lead with hands on technology. Took care of critical projects & overall quality of all deliverables. Piloted agile transformation and established a UPP for alignment and stepped up as a scrum master. Participated in end to end development of diagnostic tools to avoid failures and maintain high availability. Resolved multiple critical failures by driving partnerships across the globe and secured multiple awards

### INTERNATIONAL ASSIGNMENTS

Mar-2009 to June -2017

- ❖ Trained teams on fast commit to improve execution efficiencies in Genoa, Italy 2016
- ❖ Defined test strategy for 100+ teams with Test COE Genoa in 2016
- ❖ Stabilized designs through follow up with architects at Genoa in 2015
- ❖ Trained architects on CBA systems in Stockholm, Sweden 2014
- ❖ Designed debugging tools and shared demo to customers in Pagani, Italy in 2012
